

Minnesota Association for Family and Early Education (MNAFEE) presents: Fall 2017 Professional Development Workshops:

Understanding ACEs: Building Self-Healing Programs & Communities

The Adverse Childhood Experiences (ACE) Study findings represent a paradigm shift in human understanding of the origins of physical, social, mental, and societal health and well-being. We now know that leading causes of disease and disability, learning and productivity problems, and early death have their roots in the cumulative neurodevelopmental impacts of Adverse Childhood Experiences (ACEs).

The Understanding ACEs: Building Self-Healing Programs & Communities presentation provides information about the ACE study, along with neurobiology that explains why ACEs impact people's lives, and what we can all do to dramatically improve health and resilience for this and future generations.

Presenter: Minnesota Communities Caring for Children

Registration check-in opens at 8:30. Workshops start at 9 a.m. and end at 3 p.m.

This course is Develop approved.

Workshops will be presented in locations across Minnesota from October 6, 2017 to January 19, 2018.

Register online or by mail using the Mail-In Registration Form posted online at www.mnafee.org.

Registration Fees: \$50 for MNAFEE members - \$60 for non-members

Morning refreshments and lunch are included in the workshop
